## Fiskar McCoot

*A reasonably eager beaver . . .*

Fiskar is a lumberjack. He works with wood, cuts down trees and also salvages drift wood. He supplies a lot of the wood that is used for building and repairing the walkways and buildings in the marsh and also some of the fuel burned in the fireplaces of Beamfleet.

Beavers are massive beasts and tower over many others. Although Fiskar is strong and rugged, he is also warm and gentle and will always look to help out someone in need.
